

Reference Camera Boards 1

One card per scene. Use these to gather camera angle, perspective, and staging references before any stencil work.

Temporary Chat preferred

p001_s01 | P1 S1: The Rug River - Nova beeped beside the blue

STORY

Nova beeped beside the blue rug river, beep-beep, small and slow.

ASSETS

fixed_robot, workbench, logic_kit

CAMERA

establishing shot for the page beat; base camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand river

REFERENCE GOAL

find camera references for opening scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 1 of 3 on page 001; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p001_s02 | P1 S2: The Rug River - Maya tapped her pencil twice

STORY

Maya tapped her pencil twice

ASSETS

maya, workbench, logic_kit

CAMERA

closer action/detail shot between opener and outcome; base camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand river

REFERENCE GOAL

find camera references for action/detail scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 2 of 3 on page 001; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p001_s03 | P1 S3: The Rug River - I know a bridge can

STORY

I know a bridge can help you go.

ASSETS

maya, fixed_robot, workbench, logic_kit

CAMERA

closing reaction or outcome shot, visibly different from the opener; base camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand river

REFERENCE GOAL

find camera references for outcome scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 3 of 3 on page 001; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p002_s01 | P2 S1: Measure First - Engineer Alex smiled and said

STORY

Engineer Alex smiled and said, First measure, then we play.

ASSETS

alex_adult, workbench

CAMERA

object-focused establishing insert; top-down or macro detail; base camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

REFERENCE GOAL

find camera references for object insert; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 1 of 3 on page 002; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p002_s02 | P2 S2: Measure First - Maya marked the blueprint lines

STORY

Maya marked the blueprint lines

ASSETS

maya, blueprint

CAMERA

character reaction or usage angle tied to the object; base camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

REFERENCE GOAL

find camera references for object-use reaction; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 2 of 3 on page 002; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p002_s03 | P2 S3: Measure First - planned the bridge the clever

STORY

planned the bridge the clever way.

ASSETS

maya, alex_adult, blueprint

CAMERA

character reaction or usage angle tied to the object; base camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

REFERENCE GOAL

find camera references for object-use reaction; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 3 of 3 on page 002; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

Reference Camera Boards 2

One card per scene. Use these to gather camera angle, perspective, and staging references before any stencil work.

Temporary Chat preferred

p003_s01 | P3 S1: The Wobble Test - Click went the blocks then

STORY

Click went the blocks, then clack, then flop!

ASSETS

fixed_robot, logic_kit, blueprint

CAMERA

comic panel 1 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

REFERENCE GOAL

find camera references for comic panel 1; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 1 of 4 on page 003; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p003_s02 | P3 S2: The Wobble Test - The bridge leaned left and

STORY

The bridge leaned left and right.

ASSETS

fixed_robot, blueprint

CAMERA

comic panel 2 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

REFERENCE GOAL

find camera references for comic panel 2; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 2 of 4 on page 003; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p003_s03 | P3 S3: The Wobble Test - Maya grinned and tried again

STORY

Maya grinned and tried again

ASSETS

maya, logic_kit, blueprint

CAMERA

comic panel 3 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

REFERENCE GOAL

find camera references for comic panel 3; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 3 of 4 on page 003; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p003_s04 | P3 S4: The Wobble Test - Almost means I'm learning right

STORY

Almost means I'm learning right.

ASSETS

maya, fixed_robot, alex_adult, logic_kit, blueprint

CAMERA

comic panel 4 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

REFERENCE GOAL

find camera references for comic panel 4; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 4 of 4 on page 003; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p004_s01 | P4 S1: The Triangle Trick - Alex drew three sturdy sides

STORY

Alex drew three sturdy sides and Maya's eyes grew wide.

ASSETS

maya, alex_adult, blueprint, caliper, logic_kit

CAMERA

establishing shot for the page beat; base camera: dramatic macro close-up through a triangle frame, Maya's focused eye visible behind the structure

REFERENCE GOAL

find camera references for opening scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 1 of 2 on page 004; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p004_s02 | P4 S2: The Triangle Trick - Triangles catch the wobbles fast

STORY

Triangles catch the wobbles fast and tuck the strength inside.

ASSETS

maya, alex_adult, blueprint, caliper, logic_kit

CAMERA

closing reaction or outcome shot, visibly different from the opener; base camera: dramatic macro close-up through a triangle frame, Maya's focused eye visible behind the structure

REFERENCE GOAL

find camera references for outcome scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 2 of 2 on page 004; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

Reference Camera Boards 3

One card per scene. Use these to gather camera angle, perspective, and staging references before any stencil work.

Temporary Chat preferred

p005_s01 | P5 S1: Across! - Nova marched across the bridge

STORY

Nova marched across the bridge, beep-boop, bright and bold.

ASSETS

fixed_robot, blueprint

CAMERA

establishing shot for the page beat; base camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers

REFERENCE GOAL

find camera references for opening scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 1 of 3 on page 005; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p005_s02 | P5 S2: Across! - Maya held her blueprint high

STORY

Maya held her blueprint high

ASSETS

maya, blueprint

CAMERA

closer action/detail shot between opener and outcome; base camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers

REFERENCE GOAL

find camera references for action/detail scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 2 of 3 on page 005; do not reuse the same camera distance or focal hierarchy as the neighboring scene.

p005_s03 | P5 S3: Across! - I built it from my

STORY

I built it from my plan!

ASSETS

maya, fixed_robot, alex_adult, blueprint, logic_kit, workbench

CAMERA

closing reaction or outcome shot, visibly different from the opener; base camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers

REFERENCE GOAL

find camera references for outcome scene; find staging references without copying composition; keep this scene visually distinct from adjacent scenes

VERIFIER

Scene 3 of 3 on page 005; do not reuse the same camera distance or focal hierarchy as the neighboring scene.
