

p001_s01The Rug River - Nova beeped beside the

Nova beeped beside the blue rug river, beep-beep, small and slow.
Camera: establishing shot for the page beat; base camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand river

p001_s02The Rug River - Maya tapped her pencil

Maya tapped her pencil twice
Camera: closer action/detail shot between opener and outcome; base camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand river

p001_s03The Rug River - I know a bridge can

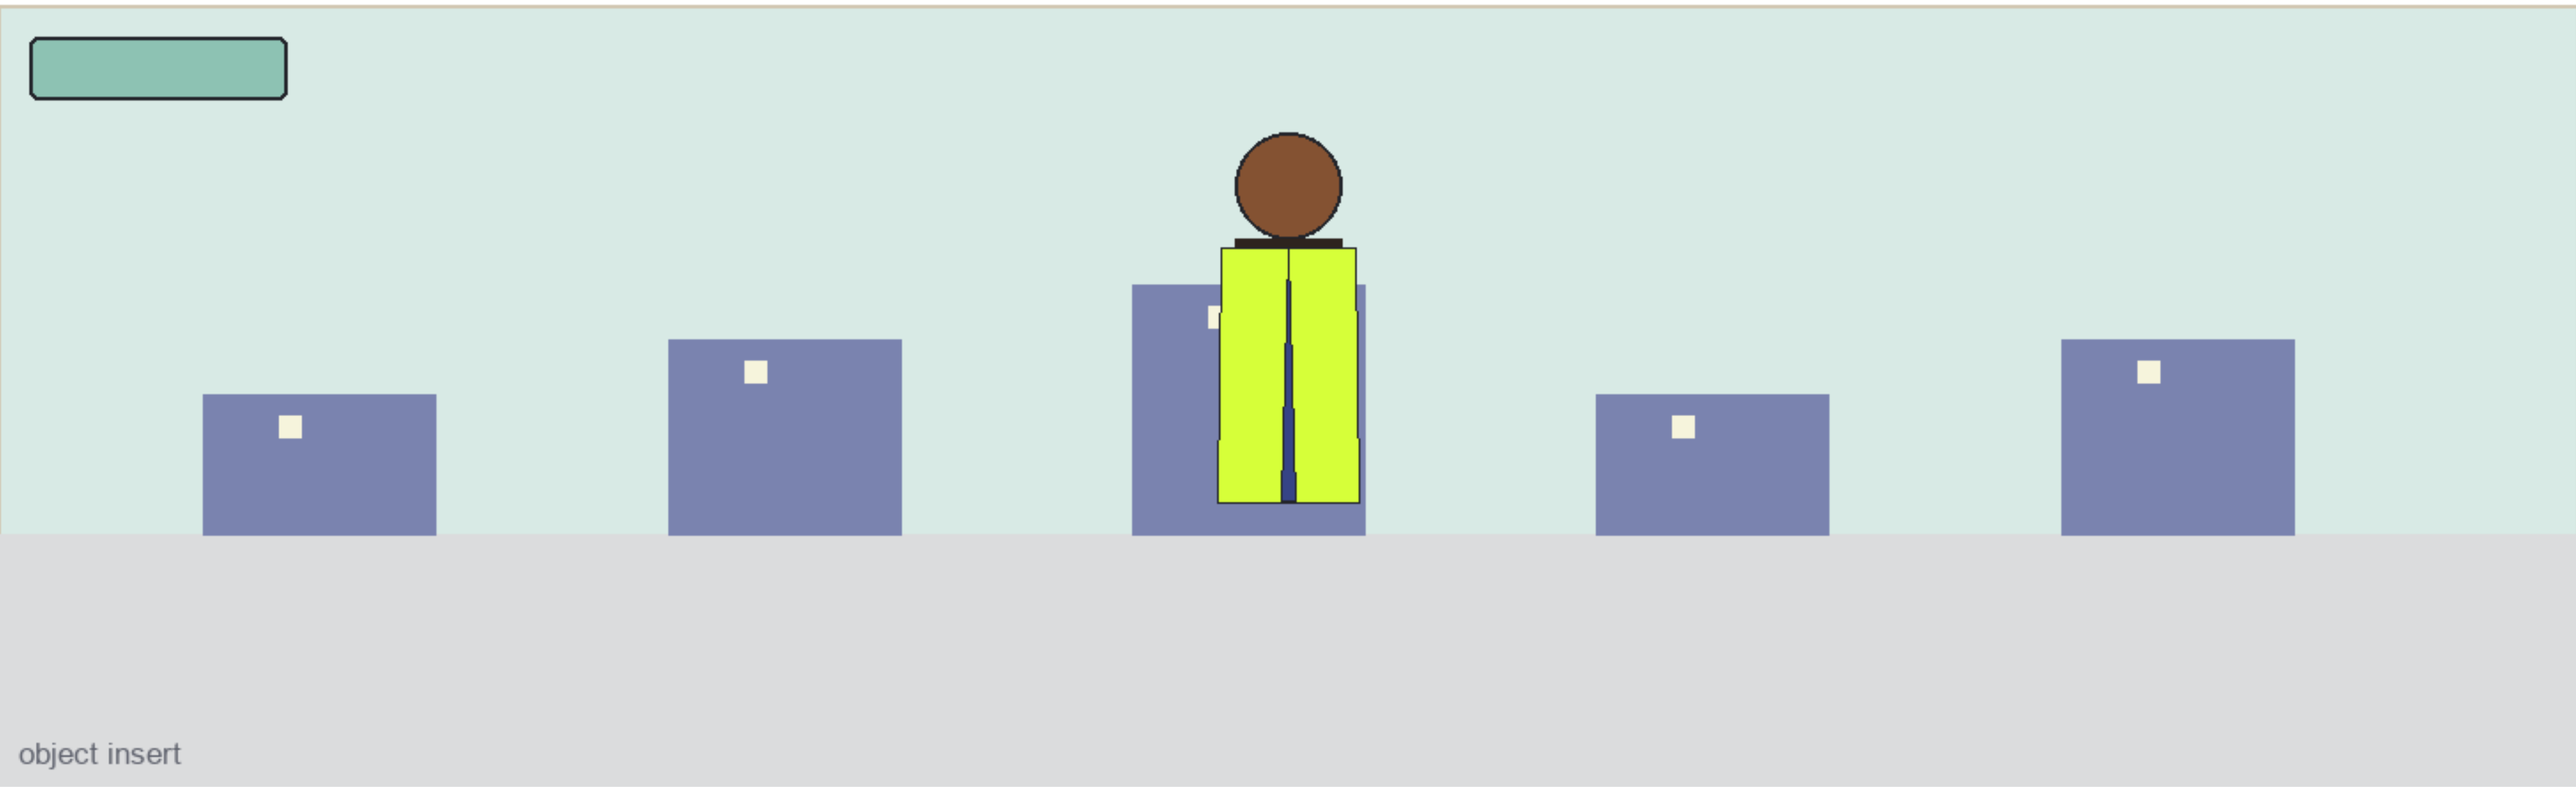

I know a bridge can help you go.
Camera: closing reaction or outcome shot, visibly different from the opener; base camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand

Story / Human Review Note

Nova beeped beside the blue rug river, beep-beep, small and slow. Maya tapped her pencil twice: I know a bridge can help you go.

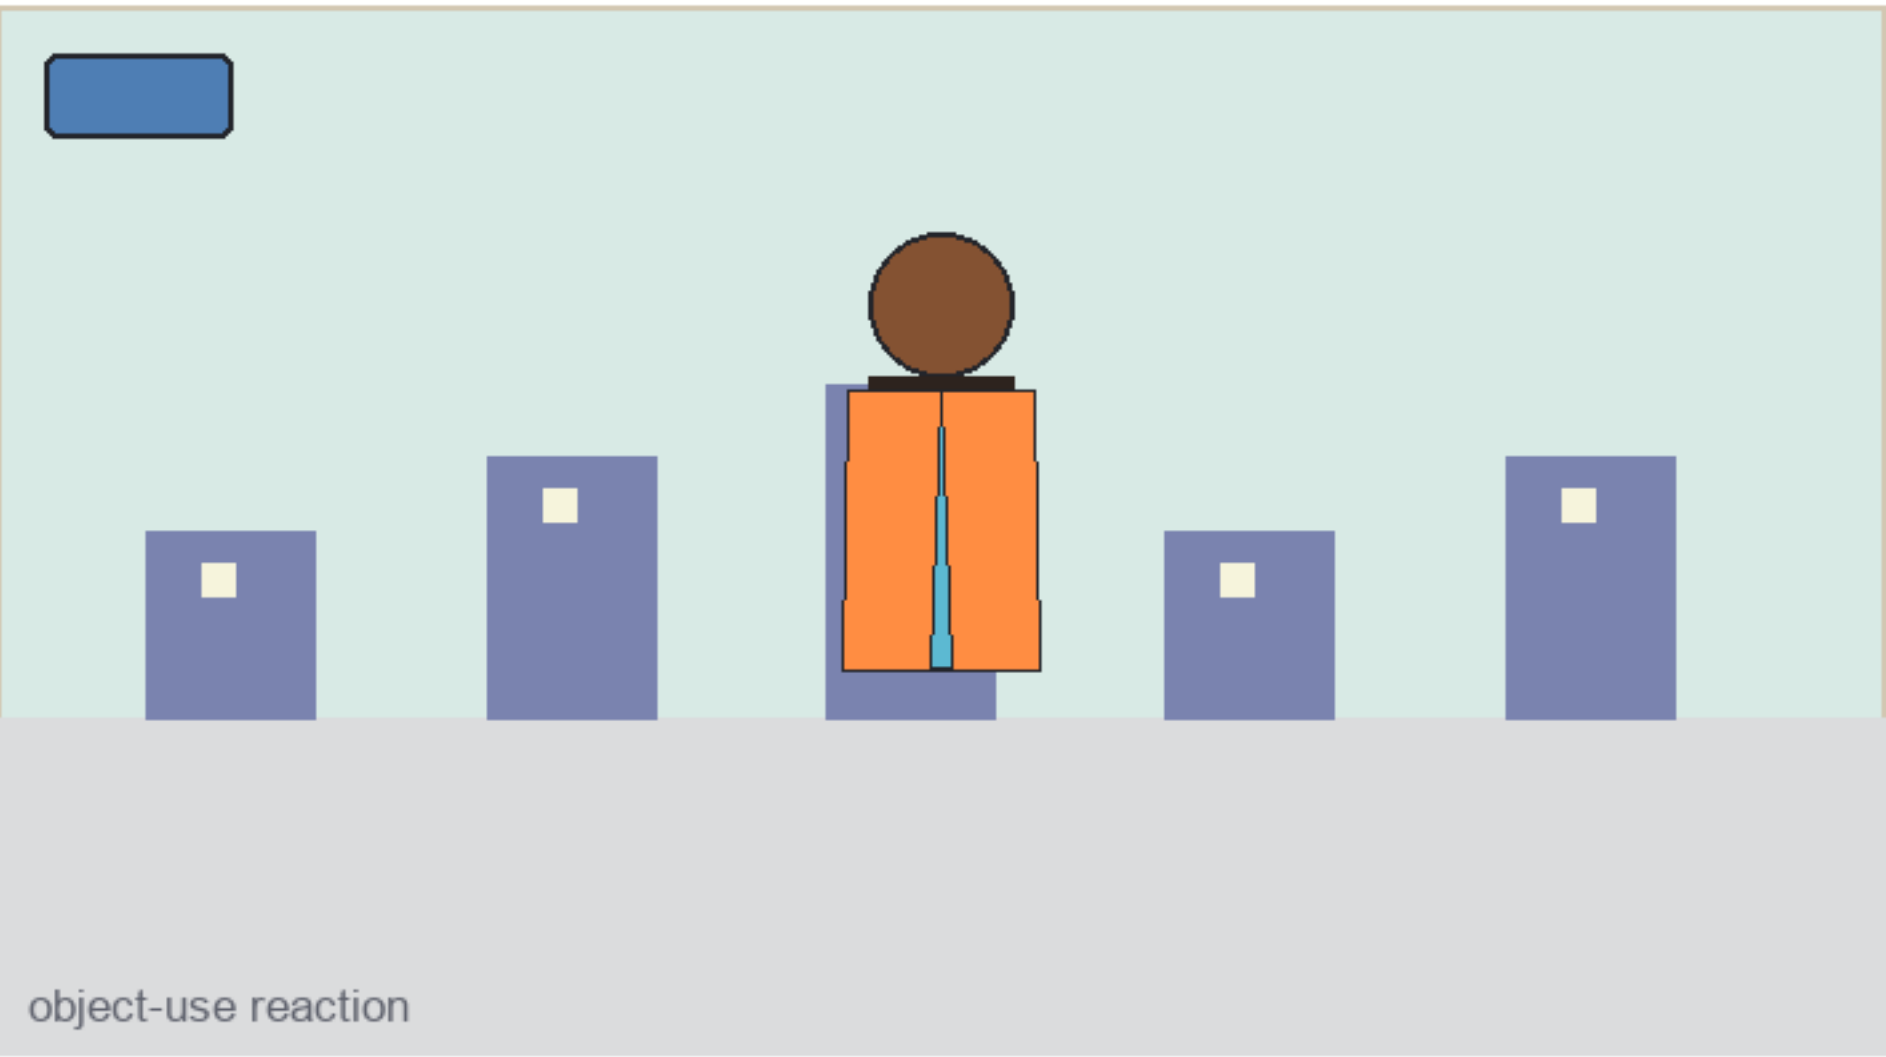

Beat: Maya notices a playful engineering problem and decides to help Nova cross.
Camera: low child-height wide shot from Nova's side of the rug, making the tiny gap feel like a grand river

Engineer Alex smiled and said, First measure, then we play.
Camera: object-focused establishing insert; top-down or macro detail; base camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

p002_s02Measure First - Maya marked the bluepr

Maya marked the blueprint lines
Camera: character reaction or usage angle tied to the object; base camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

p002_s03Measure First - planned the bridge the

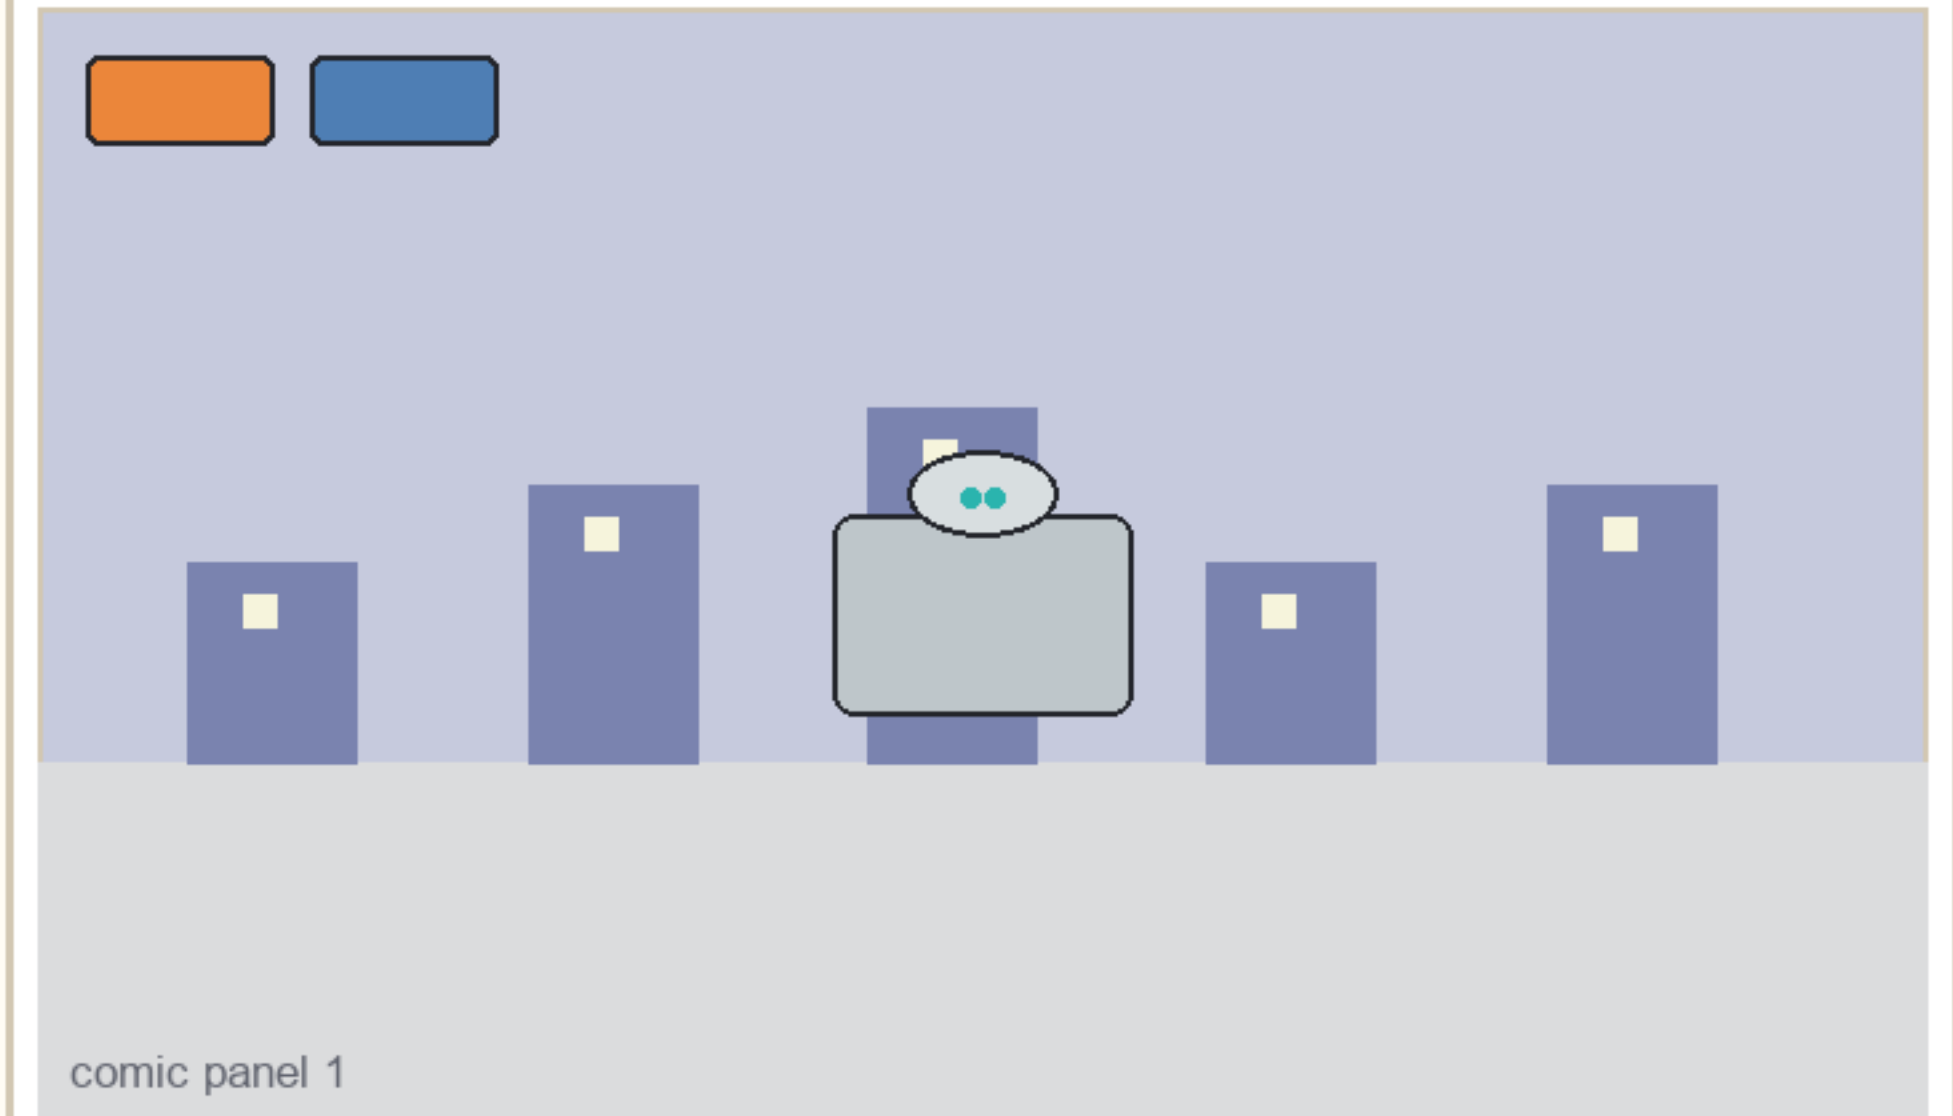

planned the bridge the clever way.
Camera: character reaction or usage angle tied to the object; base camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

Story / Human Review Note

Engineer Alex smiled and said, First measure, then we play. Maya marked the blueprint lines and planned the bridge the clever way.

Beat: Alex guides Maya to measure and plan before building.
Camera: overhead table shot with Maya's hands, Alex's caliper, and the first triangle bridge sketch

p003_s01The Wobble Test - Click went the block

comic panel 1

Click went the blocks, then clack, then flop!
Camera: comic panel 1 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

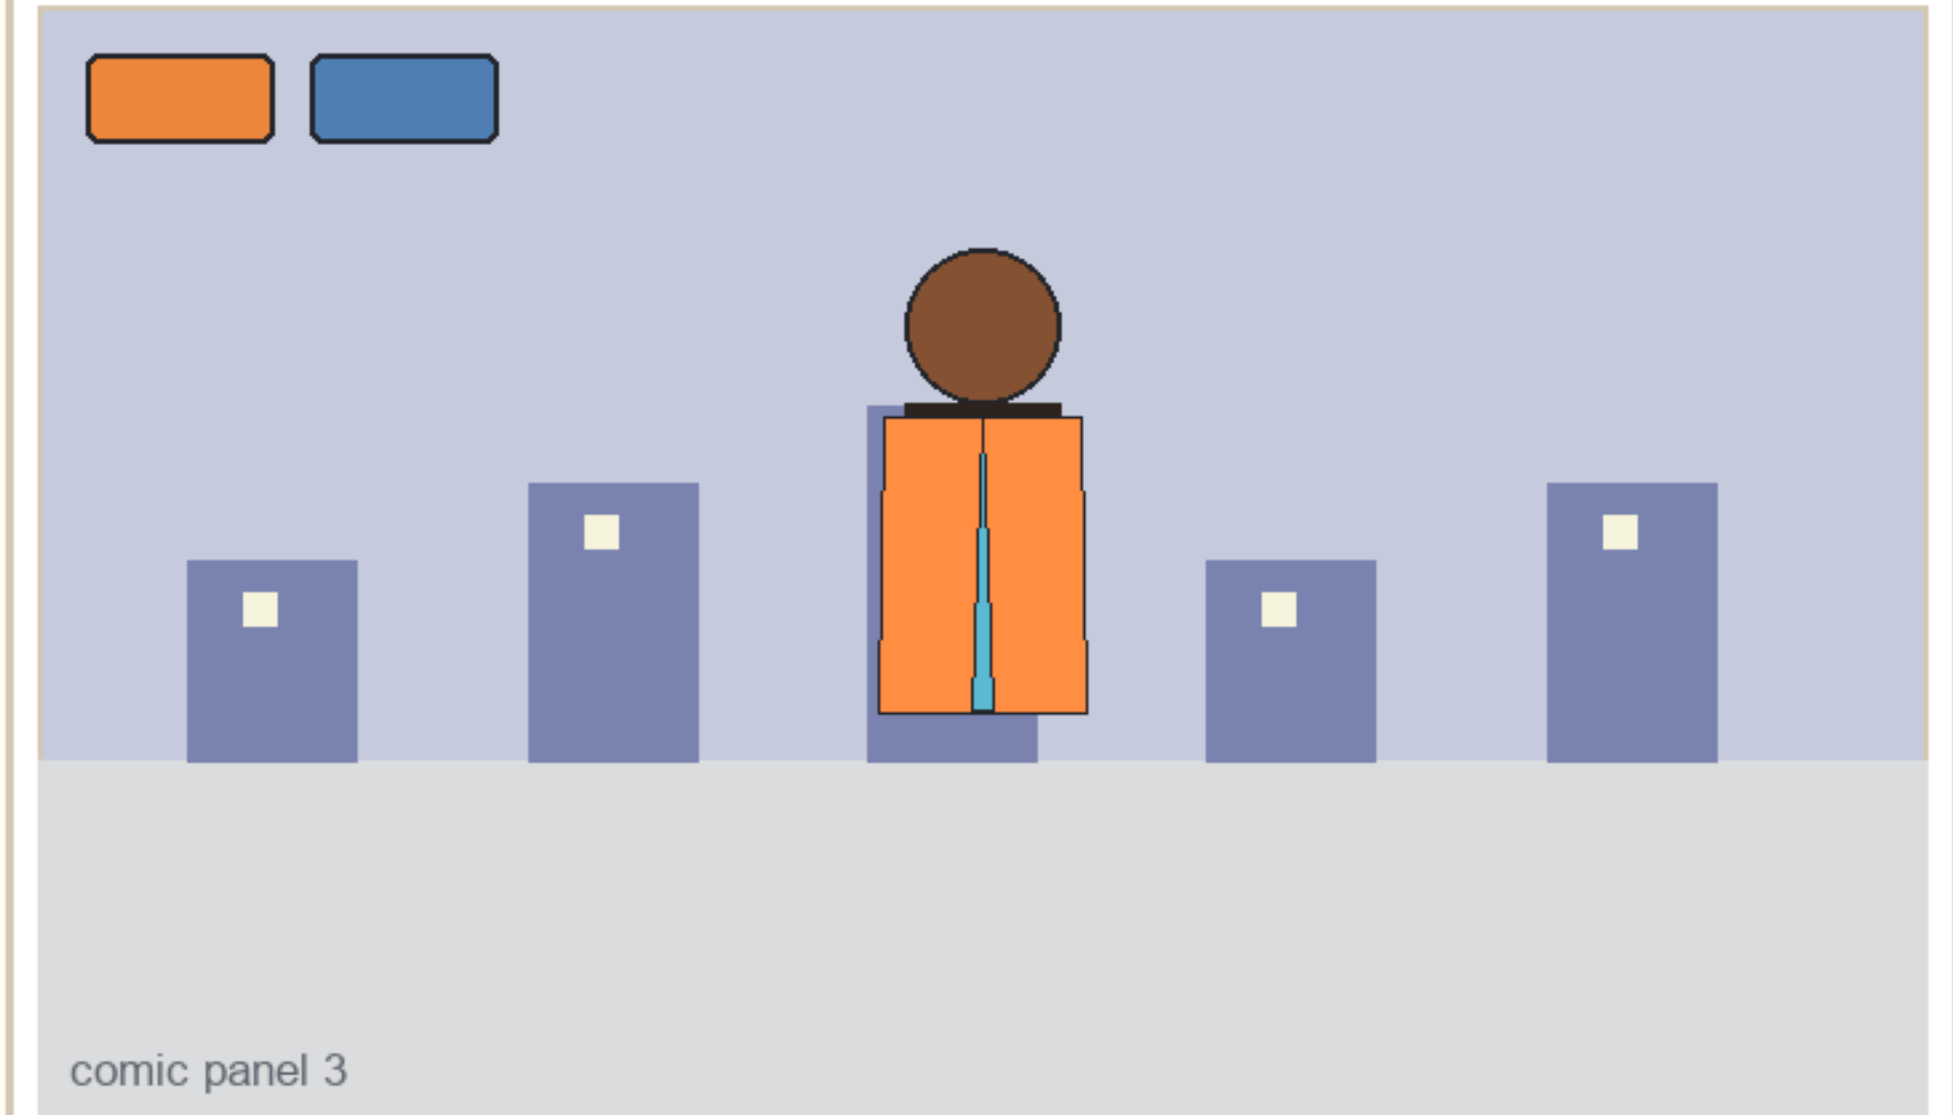

p003_s02The Wobble Test - The bridge leaned le

comic panel 2

The bridge leaned left and right.
Camera: comic panel 2 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

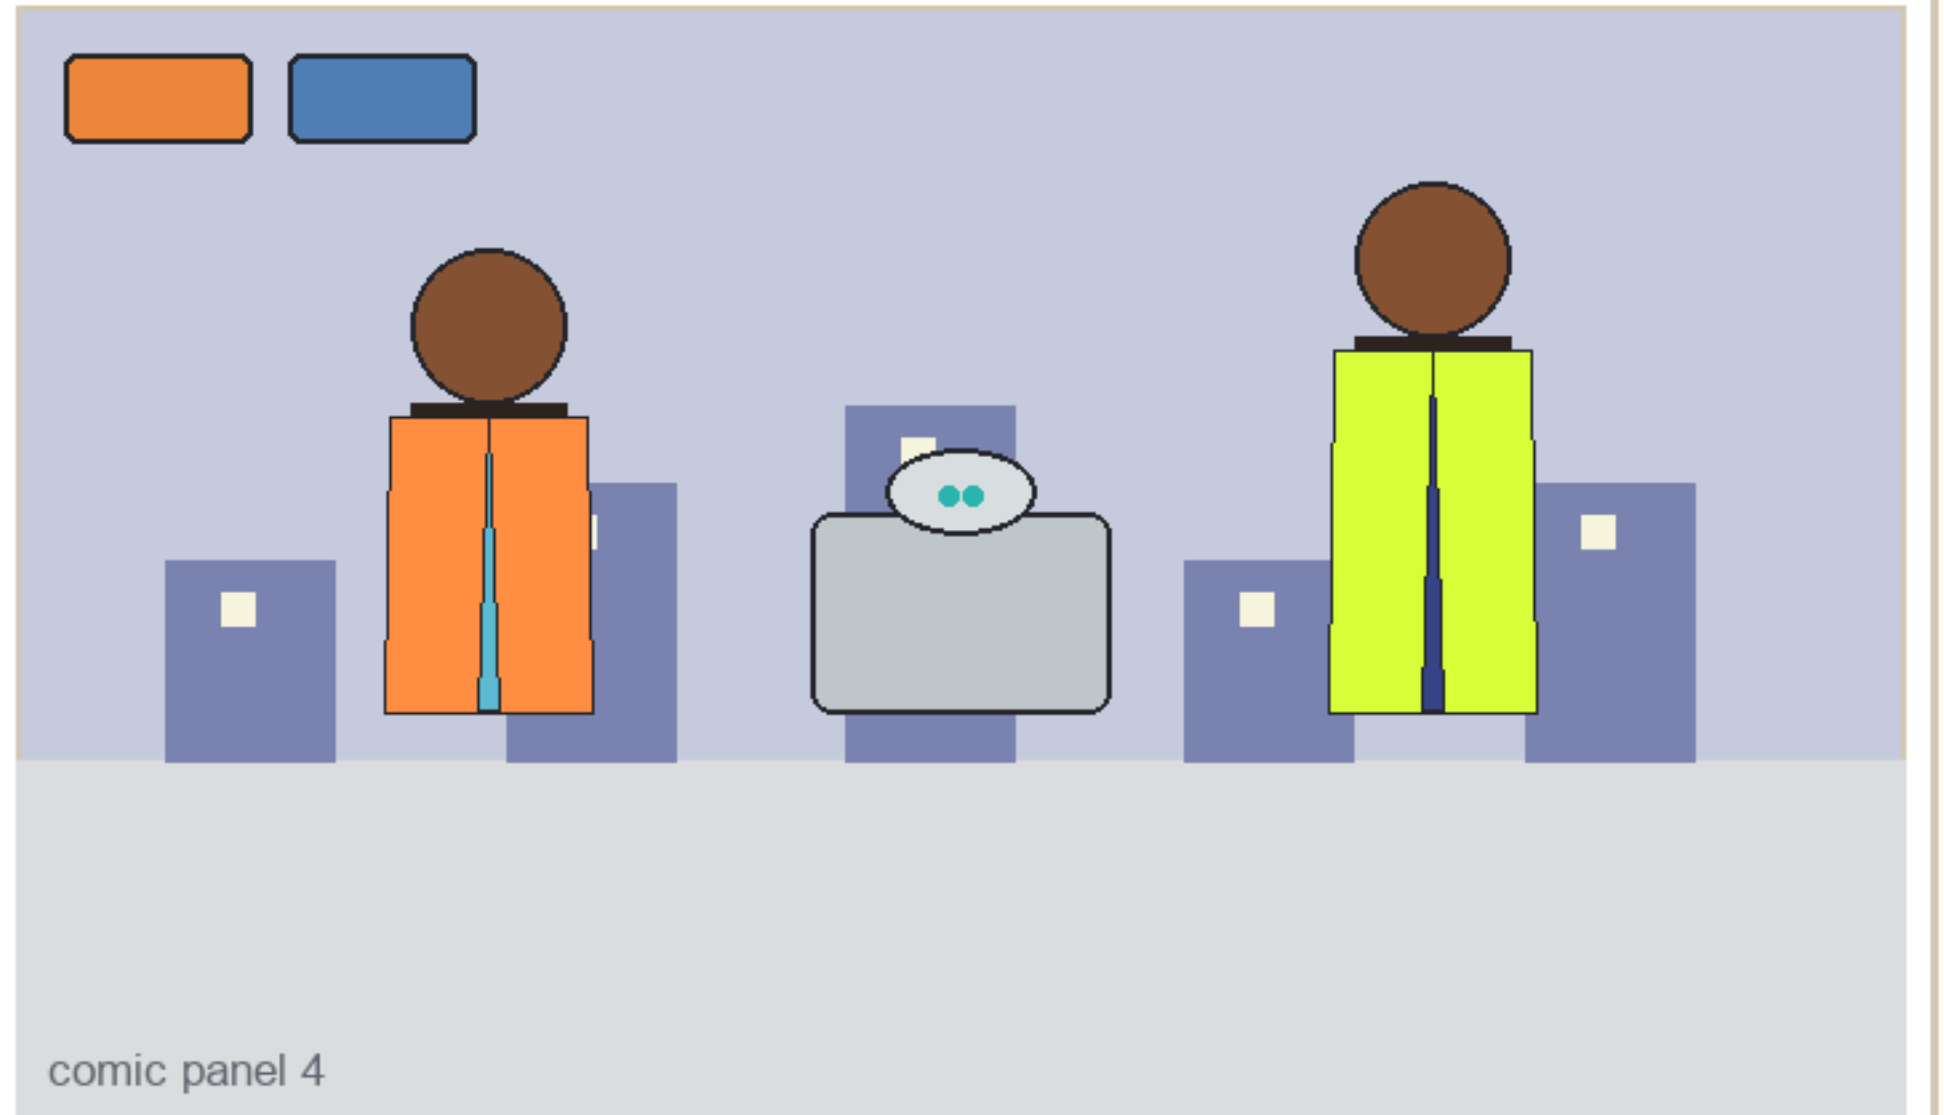

p003_s03The Wobble Test - Maya grinned and tri

comic panel 3

Maya grinned and tried again
Camera: comic panel 3 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

p003_s04The Wobble Test - Almost means I'm lea

comic panel 4

Almost means I'm learning right.
Camera: comic panel 4 of 4; keep a distinct beat within this sequence; base camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

Story / Human Review Note

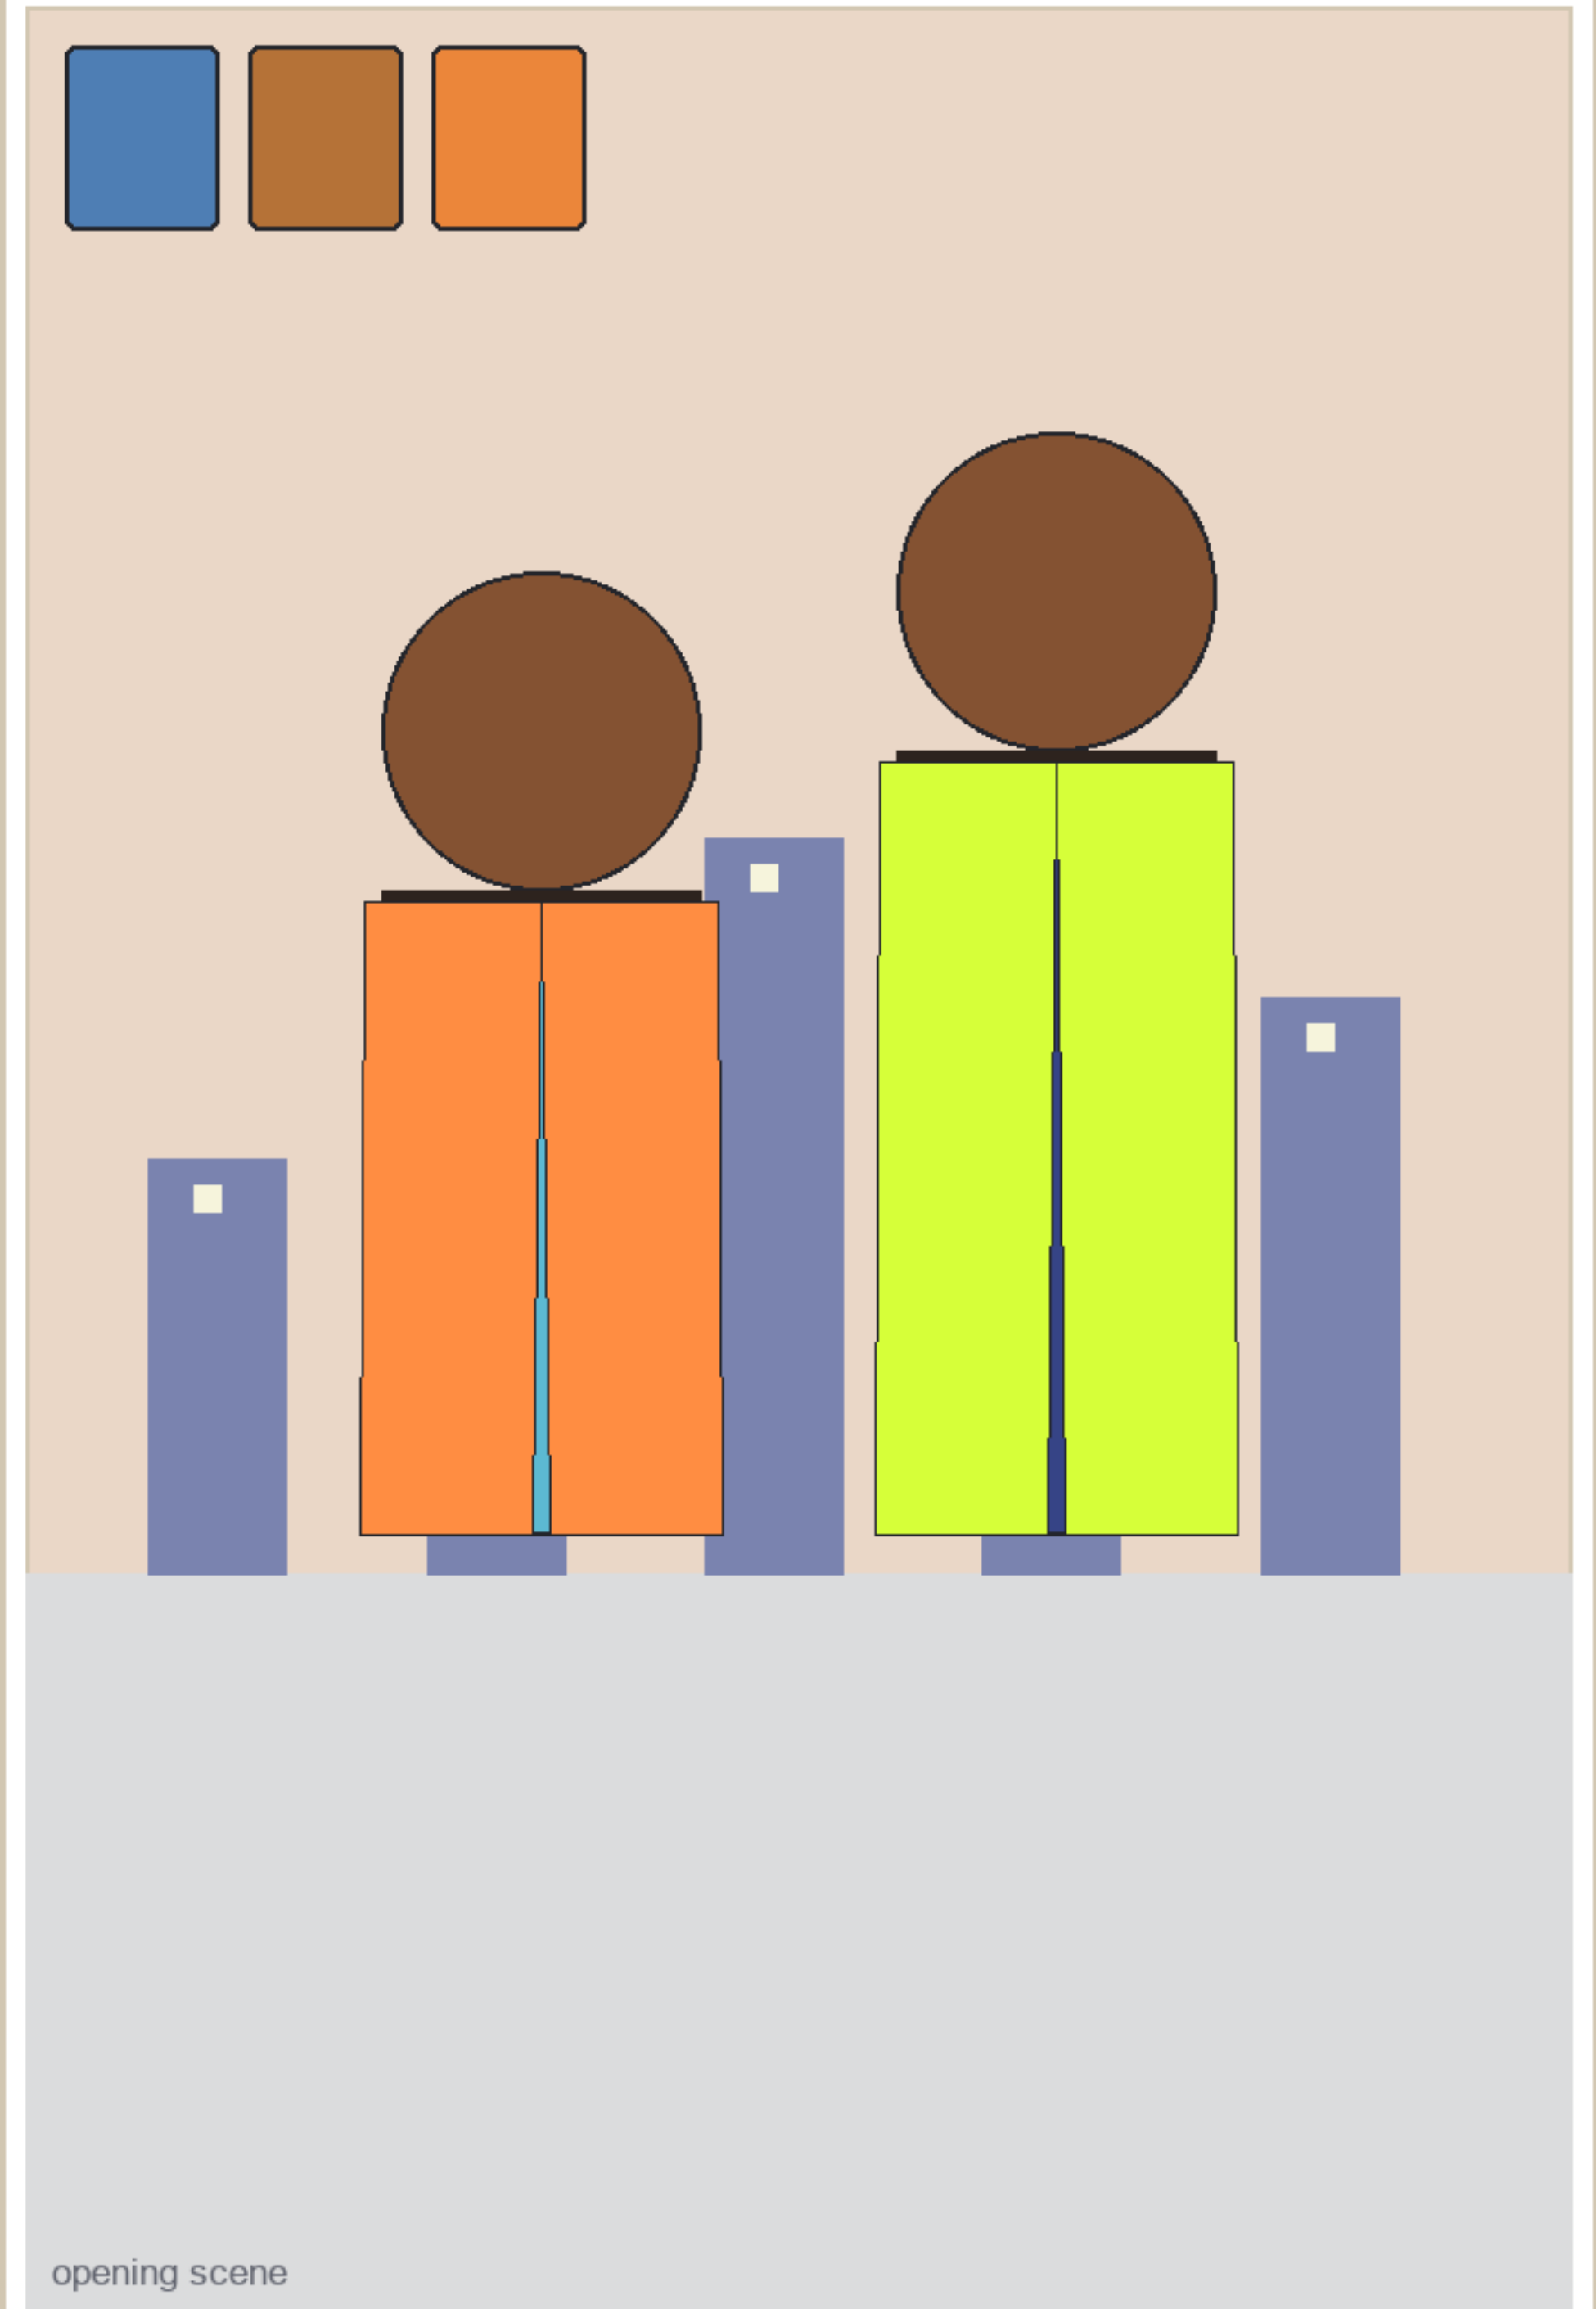

Click went the blocks, then clack, then flop! The bridge leaned left and right. Maya grinned and tried again: Almost means I'm learning right.

Beat: The first bridge fails in a funny, useful way.

Camera: three comic panels: build, wobble, gentle flop with Nova safe and surprised

p004_s01The Triangle Trick - Alex drew three s

opening scene

Alex drew three sturdy sides and Maya's eyes grew wide.
Camera: establishing shot for the page beat; base camera: dramatic macro close-up through a triangle frame, Maya's focused eye visible behind the structure

p004_s02The Triangle Trick - Triangles catch t

outcome scene

Triangles catch the wobbles fast and tuck the strength inside.
Camera: closing reaction or outcome shot, visibly different from the opener; base camera: dramatic macro close-up through a triangle frame, Maya's focused eye visible behind the

Story / Human Review Note

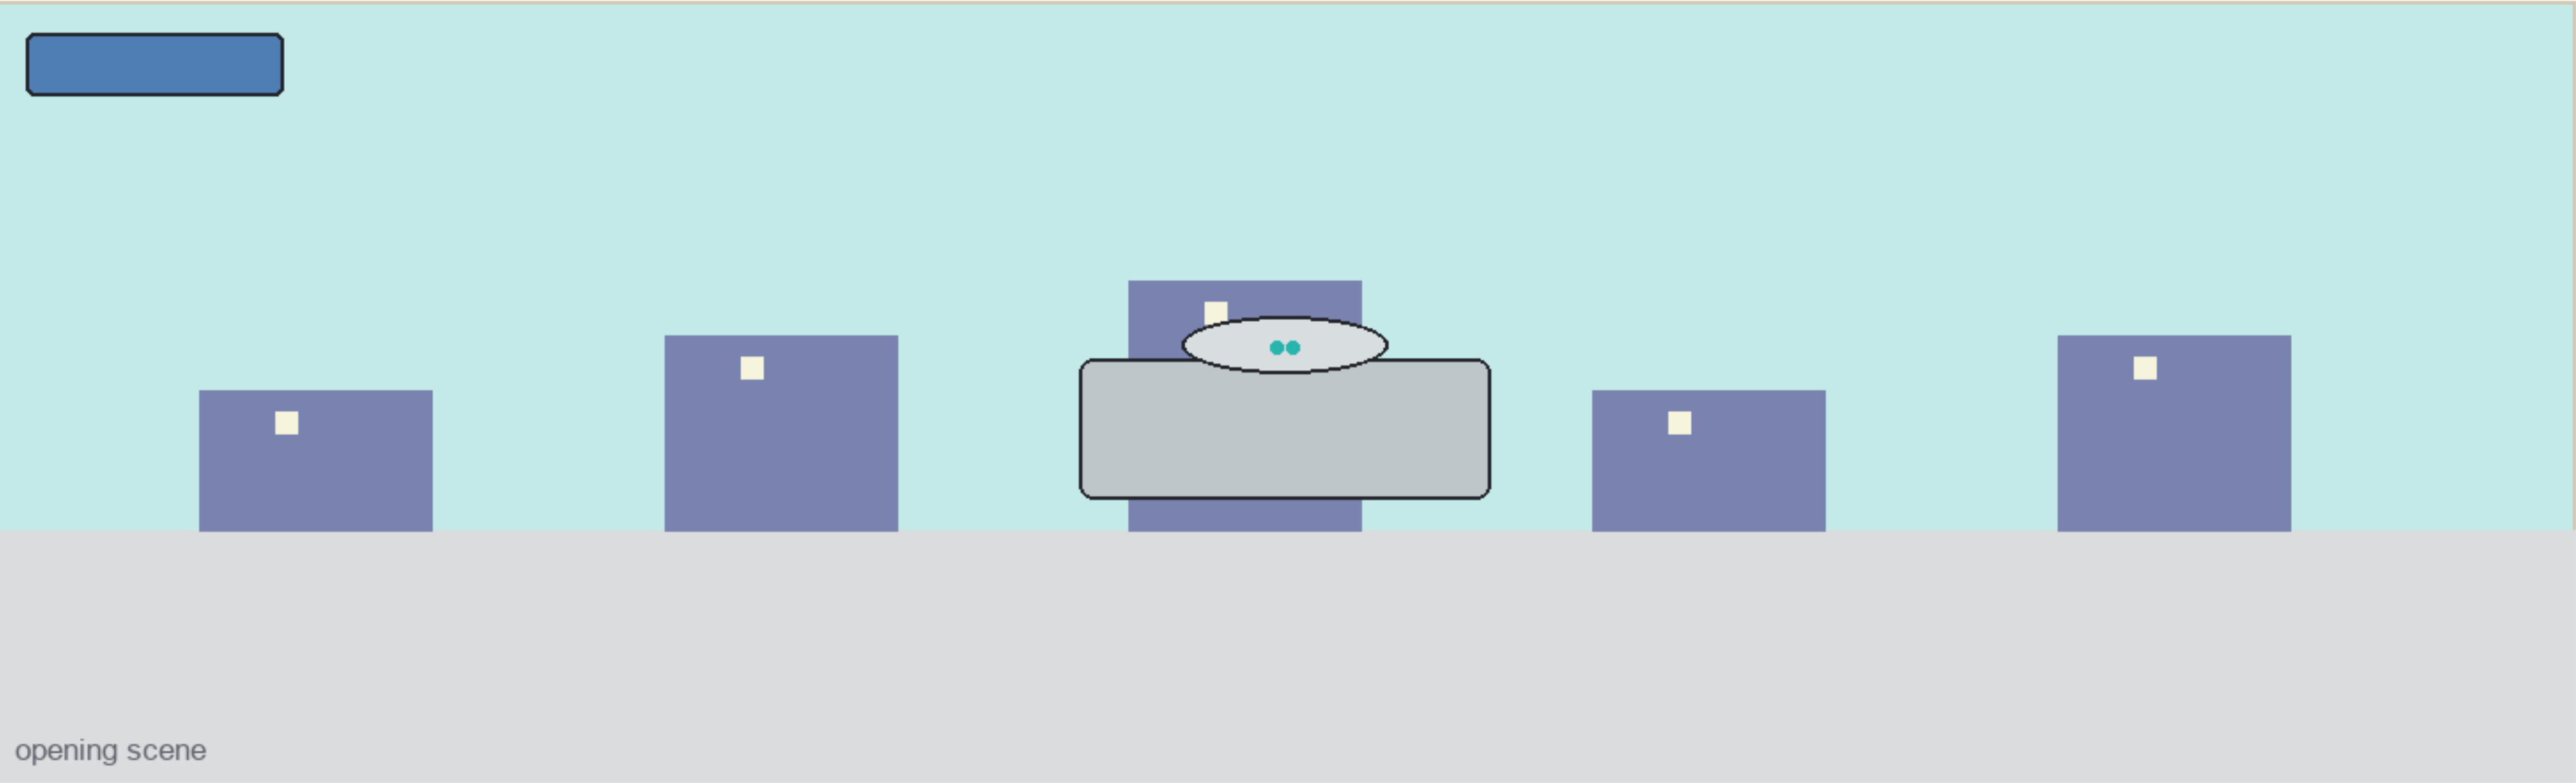

Alex drew three sturdy sides and Maya's eyes grew wide. Triangles catch the wobbles fast and tuck the strength inside.

Beat: Maya learns the engineering principle that triangular bracing adds strength.

Camera: dramatic macro close-up through a triangle frame, Maya's focused eye visible behind the structure

p005_s01 Across! - Nova marched across the brid

opening scene

Nova marched across the bridge, beep-boop, bright and bold.
Camera: establishing shot for the page beat; base camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers

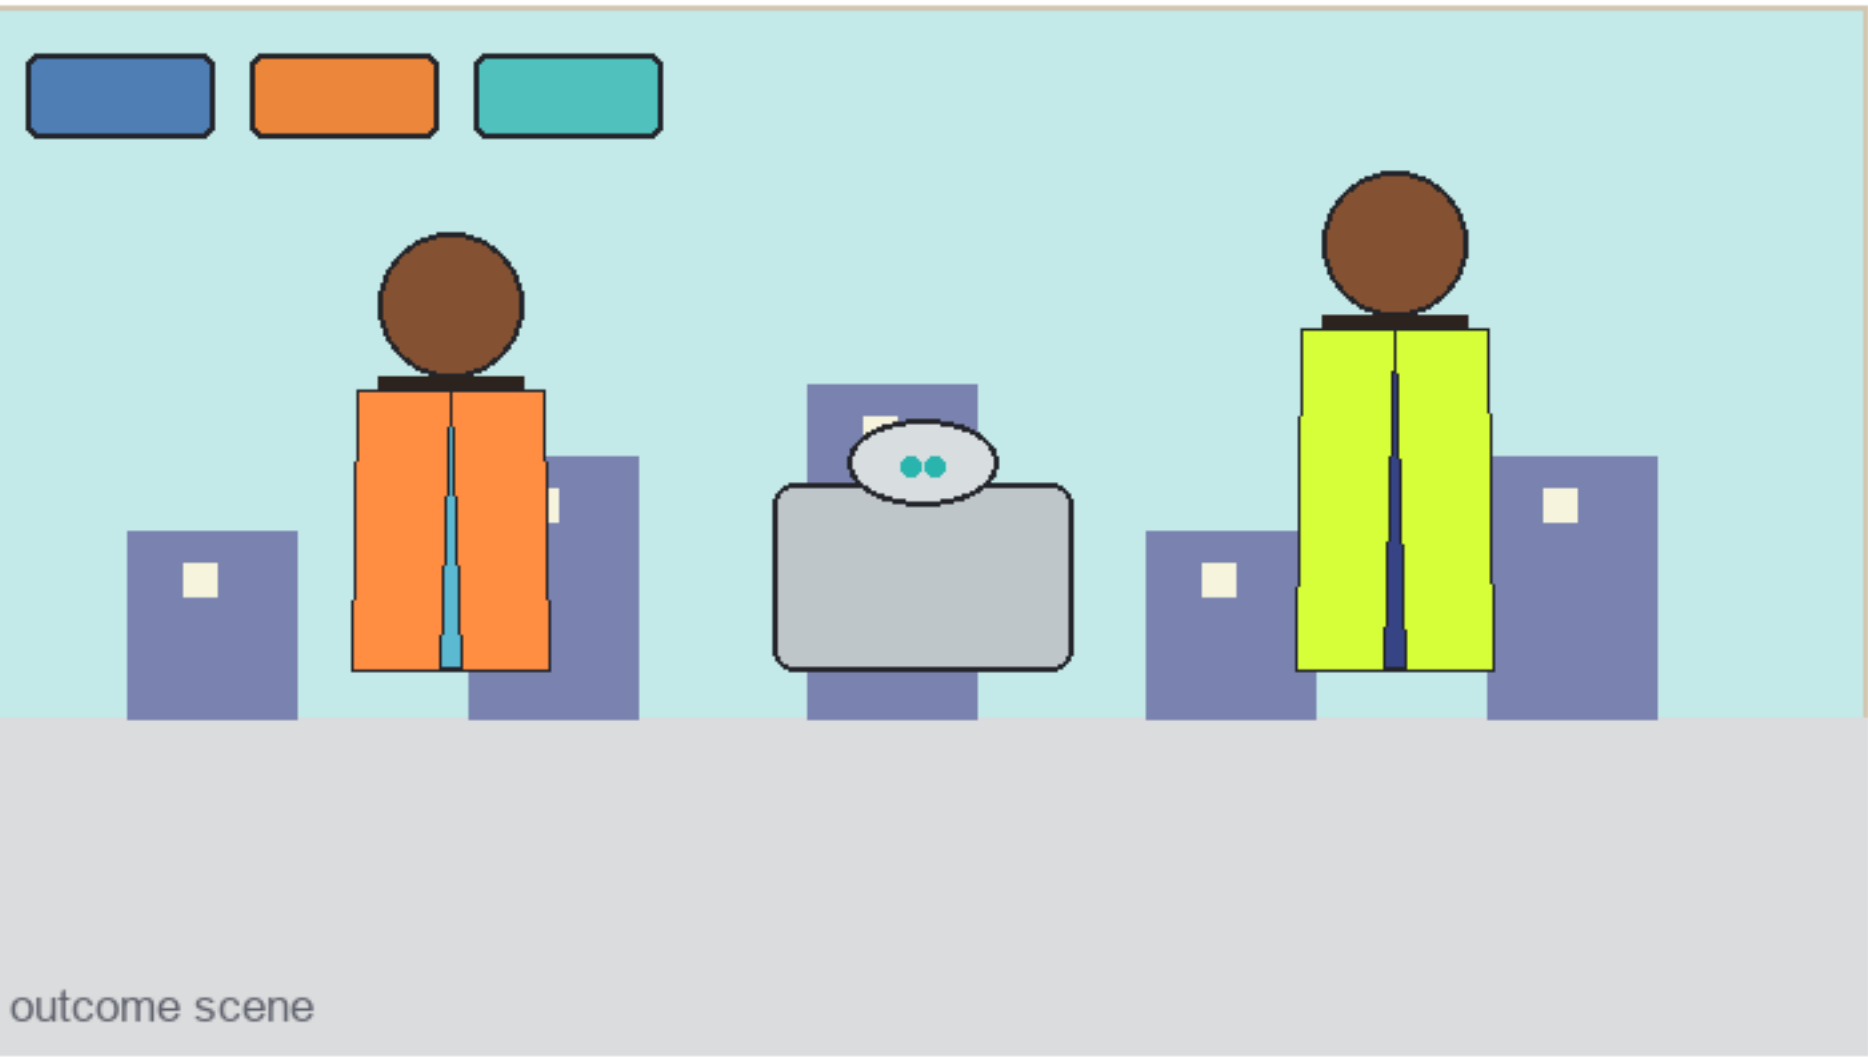

p005_s02 Across! - Maya held her blueprint high

action/detail scene

Maya held her blueprint high
Camera: closer action/detail shot between opener and outcome; base camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers

p005_s03 Across! - I built it from my

outcome scene

I built it from my plan!
Camera: closing reaction or outcome shot, visibly different from the opener; base camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers

Story / Human Review Note

Nova marched across the bridge, beep-boop, bright and bold. Maya held her blueprint high: I built it from my plan!

Beat: The bridge works and Maya feels proud of the engineering process.

Camera: celebratory wide hero shot from low angle, Nova crossing the bridge while Maya cheers
